Martha Slack General Manager Rio Alto Water District 22099 River View Drive Cottonwood, CA 96022

Re: June 30, 2025 GASB 75 Disclosure for the Rio Alto Water District

This report provides the note disclosures and required supplementary information for the Rio Alto Water District (District)'s other postemployment benefits (OPEB) plan for the reporting period ending June 30, 2025.

Governmental Accounting Standards Board (GASB) Statement No. 75 allows for a roll forward of results from the prior actuarial valuation date to a reporting date no more than 30 months and 1 day following. If significant changes occur between the valuation date and the measurement date, consideration should be given to whether a new actuarial valuation is needed. The District provided changes since the July 1, 2023 actuarial valuation and it was determined that a new actuarial valuation was not needed for this measurement period. The results set forth in this report are established from the District's July 1, 2023 valuation and are based on the same census, benefit provisions, and assumptions. The District provided contributions, payroll, and any applicable asset information for the measurement period ending June 30, 2025.

We appreciate the opportunity to work on this report with the District and are available to answer any questions the District or its auditors may have regarding this report.

Sincerely,

Molly McGee, ASA, EA, FCA, MAAA

Consulting Actuary

Andy Yost, MBA, QKC, QPA

Managing Director

## General Information about the OPEB Plan

## Plan Description

The District administers a single employer defined benefit healthcare plan. The District currently provides retiree health benefits to eligible participants.

### **Benefits Provided**

Retired management prior to July 1, 2010 receive 100% of all benefits (medical, dental and vision). Retired staff prior to July 1, 2010 receive 100% of the employee-only medical premium, 70% of the dependent premium, and 100% of dental and vision premium.

Members who retire on or after July 1, 2010 receive District-paid benefits up to 100% of the Consumer Driven Health Plan medical premium. Members who choose different plans pay the difference in cost (if greater). Members receive 100% of dental and vision premiums.

All benefits are paid for the lifetime of the retiree and continue for the lifetime of an eligible surviving spouse. Employees become eligible for retiree health benefits upon attainment of age 60 and completion of 20 years of service.

## **Employees Covered by Benefit Terms**

Retirees or beneficiaries receiving benefit payments as of July 1, 2023
Active eligible employees as of July 1, 2023

3 7

## Contributions

The District contributed \$21,280 into the California Employers' Retiree Benefit Trust (CERBT) for the fiscal year ended June 30, 2025. The District pays retiree benefits from sources outside the irrevocable OPEB trust.

## **Net OPEB Liability**

The District's net OPEB liability was measured as of June 30, 2025 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2023. Standard actuarial update procedures were used to project/discount from valuation to measurement dates.

## **Actuarial Assumptions**

The total OPEB liability in the July 1, 2023 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation rate2.30 percentSalary increases2.80 percentDiscount rate5.50 percent

Investment rate of return 5.50 percent, net of OPEB plan investment expense

Healthcare cost trend rate 5.50 percent for 2025 through 2034; 4.50 percent for 2035 through

2074; and 4.00 percent for 2075 and later years

Mortality rates were based on the most recent experience study for CalPERS members.

The actuarial assumptions used in the July 1, 2023 valuation were based on the results of the most recent applicable experience study and a review of plan experience during the period July 1, 2021 to June 30, 2023.

## **Discount Rate**

GASB 75 requires the use of a discount rate that considers the availability of the OPEB plan's fiduciary net position associated with the OPEB of current active and inactive employees and the investment horizon of those resources.

OPEB plans with irrevocable trust accounts can utilize a discount rate equal to the long-term expected rate of return to the extent that the OPEB plan's fiduciary net position is projected to be sufficient to make projected benefit payments and the OPEB plan assets are expected to be invested using a strategy to achieve that return.

To determine if the OPEB plan assets are sufficient, a calculation of the projected fiduciary net position and the amount of projected benefit payments is compared in each period. When OPEB plan assets are determined to not be sufficient, a blended rate is calculated.

For OPEB plans that do not have irrevocable trust accounts, GASB 75 requires a discount rate equal to the yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

## Rio Alto Water District GASB 75 Note Disclosures and Required Supplementary Information for the Reporting Year Ended June 30, 2025

## **Discount Rate (cont.)**

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of real rates of return for each major asset class, based on published capital market assumptions, are summarized in the following table:

Asset Class	Assumed Asset Allocation	Real Rate of Return
Broad U.S. Equity	40%	5.1%
U.S. Fixed	43%	2.4%
Real Estate	5%	4.7%
Commodities	8%	1.4%
Cash Equivalents	4%	0.6%

## Investment Rate of Return

The District's policy regarding the allocation of the plan's invested assets is established and may be amended by District management. The primary objective is to maximize total Plan return, subject to the risk and quality constraints set forth in the investment guidelines. The investment objective the District has selected is CERBT Strategy 2. The asset allocation ranges for this objective are listed below:

Asset Class Global Equity	Target Allocation 40%	Target Range ± 5%	Benchmark MSCI All Country World Index IMI (net)
Fixed Income	43%	± 5%	Bloomberg Long Liability Index

Commodities Cash	4% 0%	± 3% ± 2%	S&P GSCI Total Return Index ICE BofA US 3-Month Treasury Bill Index

For the year ended on the measurement date, the annual money-weighted rate of return on investments, net of investment expense, was 10.51 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts invested.

## OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB

## **Annual OPEB Expense**

The annual OPEB expense is the sum of the change in Net OPEB Liability, the change in deferred outflows, and the change in deferred inflows, reduced by the employer contributions.

Net OPEB liability at beginning of measurement period (a)	\$620,184
Net OPEB liability at end of measurement period (b)	\$620,906
Change in net OPEB liability (b)-(a)	722
Change in deferred outflows	22,911
Change in deferred inflows	(93,338)
Employer contributions	51,628
Net OPEB expense from June 30, 2024 to June 30, 2025	<u>\$(18,077)</u>

## Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the reporting year ending June 30, 2025, the District recognized deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	0	364,851
Changes in assumptions or other inputs	60,847	86,202
Differences between projected and actual return investments	14,348	19,458
Total	\$75,195	\$470,511

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

### Actuarial Certification

The results presented in this disclosure are based on the District's July 1, 2023 valuation. The valuation was performed in accordance with generally accepted actuarial principles and practices. The actuarial assumptions and methodologies used in these calculations are believed to be reasonable under the requirements set forth in GASB 75 and the Actuarial Standards of Practice (ASOP).

Supporting documentation provided by the District was relied upon without audit. This information includes, but is not limited to, census data, premiums, OPEB plan provisions, contributions, payroll, and any applicable asset statements. The data was reviewed in accordance with ASOP 23. The valuation results, and subsequent disclosure information, depend on the integrity of the provided information.

The results in this report were calculated with the assistance of ProVal actuarial valuation software. The model was developed in 1994 and is maintained by Winklevoss Technologies (WinTech). Through ProVal, WinTech provides valuation and projection software for both pension and other postemployment benefit plans. We utilize ProVal in accordance with its intended purpose and have not identified any material inconsistencies in the ProVal assumptions or outputs that would affect this valuation.
