Independent Auditor's Report

Board of Directors
Rio Alto Water District
Cottonwood, California

Opinion

We have audited the accompanying financial statements of the business-type activities of Rio Alto Water District as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Rio Alto Water District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Rio Alto Water District as of June 30, 2023, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Rio Alto Water District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Rio Alto Water District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Board of Directors
Rio Alto Water District
Cottonwood, California

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Board of Directors
Rio Alto Water District
Cottonwood, California

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension, and other post-employment benefits information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information presented in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Our opinion is not modified as a result of this omission.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Statement of Net Position by Activity, Statement of Revenues, Expenses, and Changes in Net Position by Activity, and Statement of Cash Flows by Activity are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Statement of Net Position by Activity, Statement of Revenues, Expenses, and Changes in Net Position by Activity, and Statement of Cash Flows by Activity are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Reporting Entity

The Rio Alto Water District (the District), a special district of the State of California, was organized to provide water to the residents of the Lake California area in Cottonwood, California. Rio Alto Water District was created under the State of California Water Code on December 30, 1968. Shortly after its formation, the voters of the District approved a measure allowing the District to also engage in the collection, transmission, treatment, and disposal of wastewater generated within the District boundaries. The financial statements of the District include the financial activities of the Rio Alto Water District and Community Facilities District No. 2011-1.

On January 11, 2012, the Board of Directors adopted Resolution 02-12, forming Community Facilities District No. 2011-1 for the purpose of funding necessary improvements to the wastewater treatment plant and to create a wetland in order to comply with the terms of the National Pollutant Discharge Elimination System (NPDES) permit from the Regional Water Quality Control Board Central Valley Region. On April 17, 2012, the voters within the boundaries of the Community Services District No. 2011-1 approved Measure A, levying a special tax on landowners within the District.

The District's primary source of revenues are from charges to residential customers for sewer and water services primarily in the District's boundaries, which encompass approximately 6,000 acres located in Northern Tehama County, California. The District shares in the Tehama County ad valorem tax for special districts, which is determined by the Tehama County Auditor based on State law. As well, the District receives interest income from investments.

The governing body of the District is a Board of Directors (the Board) consisting of five members elected for four-year terms. Management of the District is the responsibility of the General Manager as appointed by the Board. No legally separate entities meet the criteria specified in GASB 61 for treatment as component units of the District. Community Facilities District No. 2011-1 is not considered a separate legal entity as it does not have its own governing board. All decisions are made by the Board of Directors of Rio Alto Water District and all property is owned by Rio Alto Water District. Its financial results are reported as part of the District. However, the USDA Bond obligation and State Water Resources Control Board (SWRCB) installment sale agreement are payable solely from the Community Facilities District special taxes and the assets pledged, and are not general obligations of the District. More information on the District's debt can be found in Note 4. No separate financial statements are issued for Community Facilities District No. 2011-1.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

B. Basis of Presentation

The accounts of the District are organized and operated on a fund basis. Each fund contains a separate, self-balancing set of accounts to account for its operations.

All activities of the District are accounted for within proprietary (enterprise) funds. Proprietary funds are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

C. Basis of Accounting

Proprietary funds are accounted for on a flow of economic resources measurement focus, which requires use of the accrual basis of accounting. On this basis, all assets and liabilities associated with operations are included on the Statement of Net Position, revenues are recognized when earned, and expenses are recorded at the time the liabilities are incurred, regardless of the timing of the related cash flows.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The District's principal ongoing operations provide water and sewer services to residential customers. Accordingly, the principal operating revenues of the District are charges to residential customers for water, sewer, and closely related services. Operating expenses include the costs of sales and services, transmission and distribution, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting the definition of *operating* revenues or expenses above are reported as *non-operating* revenues and expenses. Revenues from property taxes, connection fees, penalties from Tehama County, capacity expansion fees, and interest income are considered non-operating revenues.

The proprietary funds are presented in accordance with the hierarchy of generally accepted accounting principles for state and local governments, as described in GASB Statement 76.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

C. Basis of Accounting – continued

For purposes of the Statement of Cash Flows, the District defines cash and cash equivalents as bank account balances available on demand, cash on hand, and investment account balances that can be easily converted to cash within seven calendar days (such as the Local Agency Investment Fund). Cash flows from operating activities are presented using the direct method. All investments are reported at fair value, which is either the market price or amortized cost.

Statement of Net Position – The Statement of Net Position is designed to report the financial position of the District at the balance sheet date. The District's fund equity (net position) shown on this statement is separated into three categories defined as follows:

- *Net Investment in Capital Assets* – This component of net position consists of capital assets, net of accumulated depreciation and reduced by any outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets. This category of net position is considered non-expendable.
- *Restricted* – This component of net position consists of net position that is subject to external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments. It includes net position constrained by law, constitutional provisions, or enabling legislation.
- *Unrestricted* – This component of net position consists of net position that does not meet the definition of "restricted" or "net investment in capital assets." The District's Board of Directors may designate portions of unrestricted net position for particular purposes.

Statement of Revenues, Expenses, and Changes in Net Position – The Statement of Revenues, Expenses, and Changes in Net Position presents the results of operations of the proprietary funds for the current period. Revenues are reported by major source. Operating revenues and expenses are presented separately from non-operating items and an operating income subtotal is presented prior to adjustment for non-operating items.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

D. Revenue Policies – Utility Fees

The District's principal sources of revenue are from water sales, water connection fees, sewer charges for collection, transmission, treatment, and disposal of wastewater, and charges for the availability of utility services that are paid by owners of undeveloped lots. Water rates are established by the Board, but may only be increased in accordance with California's Proposition 218, which requires that notices of any proposed fee increases be mailed to all property owners, that a public hearing be held, and that the fee increase may not be implemented if written objections are received from a majority of property owners. However, the District's authority to set water rates is not subject to the oversight or approval of the California Public Utilities Commission or another regulatory agency. The District recognizes revenue for these charges when they are earned through the provision of services or the passage of time. In compliance with Prop 218, the District held a public hearing on May 19, 2016, and in the absence of a majority written protest, approved an increase to water rates, staged in over the subsequent five fiscal years, in response to a rate study prepared by Bartle Wells Associates.

E. Revenue Policies – Connection and Capacity Expansion Fees

The District charges a connection fee, and, for customers located in certain areas, a capacity expansion fee, for connecting to the District for the first time. The fee varies depending on the location of the new connection and whether the customer is connecting to both the water and sewer systems or the water system only. As these fees are intended primarily to finance capital costs, they are classified as non-operating revenue. The District recognizes revenue at the time the application is tendered for the new connection.

F. Delinquent Accounts and Taxes Receivable

The District transfers delinquent accounts to the Tehama County Tax Collector once per year, and a majority of these accounts are eventually collected. The allowance for uncollectible accounts is increased annually to reflect 100% of the amounts due on water and sewer charges over 90 days delinquent, less the portion of this amount that has been transferred to the Tehama County Tax Collector for collection. The portion of accounts receivable transferred to Tehama County for collection, reduced by significant Tehama County collections to be received in January following the fiscal year end, and delinquent special taxes receivable outstanding at year end are reflected as a non-current asset because the majority of these amounts will not be collected within twelve months of the end of the fiscal year.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

G. Property Tax Revenue

In accordance with Article XIII-A of the State Constitution, California property taxes are collected by the County Tax Collector, pooled, and then allocated to the local governments within the County. Property tax revenue is recognized when taxes are levied.

The property tax calendar is as follows:

Lien date:	January 1
Levy date:	July 1
Due date:	First installment – November 10 Second installment – February 10
Delinquent date:	First installment – December 11 Second installment – April 11

Under California law, property taxes are assessed and collected by the counties at up to 1% of assessed value, plus other increases approved by the voters. Property taxes collected are allocated to the District three times a year. The final distribution is made close to June 30 each year and reflects the property taxes collected from April 10 to approximately May 30.

The Board of Directors, acting as the Board of Community Facilities District 2011-1, levies a special tax each year up to \$289 per equivalent dwelling unit to provide for the debt service on the debt incurred in connection with the sewer treatment plant improvement project. While still authorized to levy the maximum tax of \$289, starting in fiscal year 2015-2016, the Board of Directors reduced the levy to \$240 per equivalent dwelling unit. The taxes are collected by the Tehama County Tax Collector at the same time as the ad valorem taxes.

H. Designation of Investments for Capital Asset Acquisition and OPEB Liability Retirement

Through the budgeting process, the District's Board of Directors has designated portions of its investment account balances for use in acquiring capital assets and retiring the District's OPEB liability. In accordance with GASB Statement 62, paragraph 31, the District considers these investment balances to be non-current assets because their intended use is to acquire other non-current assets or to retire liabilities that are not due within one year.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

I. Inventories

The District's inventories are valued at historical cost on a first-in, first-out basis. Expenses are recorded when inventory items are used. The inventory consists of water meters, materials, and supplies for maintenance of the District's water and sewer systems.

J. Use of Estimates

The preparation of basic financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates.

K. Capital Assets

The District's capital assets include plant and equipment, which are recorded at historical cost. The original plant and improvements completed by the original developer of Lake California and three low pressure systems located outside the sewer district were contributed to the District and were recorded at their fair market value.

New developments of residential lots are accepted only when the construction of the utilities meet the standards set by the District and are capitalized at a cost approved by the District's engineers.

The District's policy is to capitalize all assets with a useful life of more than a year which cost in excess of \$1,000. The District uses the straight-line method of computing depreciation. Estimated useful lives of the District's assets are determined based on the length of time the asset class is expected to provide service to the District and are as follows:

Water Plant	60 years
Sewer Treatment Plant and related components	50 years
Buildings	35 years
Equipment	5 to 10 years

Maintenance and repairs are expensed as incurred. Significant renewals or betterments are capitalized and depreciated over their estimated useful lives. Costs incurred prior to completion for major improvements or construction of capital assets are accumulated in construction in-progress. Once they are ready for use, assets previously recorded in construction in-progress are transferred to the appropriate capital asset category.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

L. Loans Payable

The District records outstanding obligations for loans payable at the time funds are disbursed by the lender to the District or for its benefit. In accordance with GASB 62, the District classifies the portion of loans payable due within one year from the balance sheet date as a current liability.

M. Compensated Absences

The District's employees earn vacation in varying amounts depending on length of service. Employees also earn sick leave at the rate of one day to 1 - 5/12 days per month depending on job category. There is no maximum accrual of sick leave except that the General Manager cannot accrue sick leave in excess of 90 days. Vacation can be accumulated to a total of between 20 to 50 days depending upon length of service and job category. Employees and the General Manager are allowed to take payment in lieu of vacation up to one-half of an employee's yearly accrual each fiscal year. Upon separation from the District, employees are entitled to full payment for accrued vacation but not for sick leave. The District records its obligations for vacation when earned by the employees based on current rates of pay at the time. The division of the compensated absences liability to current and long-term portions is based on experience.

N. Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, and then unrestricted resources as needed.

O. Net Pension Liability and Deferred Outflows and Inflows Related to Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 1: REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

P. Other Post-Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes.

Q. New Accounting Pronouncements

GASB Statement No. 96 – In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITA)*. This Statement establishes that a SBITA results in a right-to-use subscription asset and a corresponding subscription liability, providing capitalization criteria for outlays other than subscription payments. A SBITA is defined as a contract that conveys control of the right to use another party's information technology software, alone or in combination with tangible capital assets, as specified in the contract for a period of time in an exchange or exchange-like transaction. To the extent relevant, the standards for SBITAs are based on the standards issued in Statement No. 87, *Leases*. This Statement became effective for reporting periods beginning after June 15, 2022. The District has not realized any material impacts from the adoption of the new standard on its financial statements for the fiscal year ending June 30, 2023.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 2: CASH AND INVESTMENTS

Cash and investments as of June 30, 2023 are reported in the accompanying financial statements in the classifications set forth below.

	<u>Unrestricted</u>	<u>Designated</u>	<u>Restricted</u>	<u>Total</u>
Cash:				
Cash on hand and in checking accounts	\$ 224,676	\$ -	\$ 450,631	\$ 675,307
Investments:				
Cash in interest-bearing LAIF account	<u>1,146,145</u>	<u>959,697</u>	<u>1,349,221</u>	<u>3,455,063</u>
Total	<u>\$ 1,370,821</u>	<u>\$ 959,697</u>	<u>\$ 1,799,852</u>	<u>\$ 4,130,370</u>

The balance of investment in LAIF listed under Designated represents the funds designated for capital asset acquisition and retirement of OPEB liability.

A. Deposits

At June 30, 2023, the recorded amount of the District's deposits is shown above. This bank balance is partially covered by the Federal Deposit Insurance Corporation (FDIC), which has a limit of \$250,000. Amounts in excess of \$250,000 are covered by the multiple financial institution collateral pool that insures public deposits in the State of California.

Various amounts of restricted cash are restricted for debt service, project construction, and capacity expansion.

B. Investments

Local Agency Investment Fund. The District maintains an investment in the State of California Local Agency Investment Fund (LAIF). LAIF is part of the Pooled Money Investment Account (PMIA), an investment pool consisting of funds held by the state in addition to those deposited in LAIF. All PMIA funds are managed by the Investment Division of the State Treasurer's Office. This fund is not registered with the Securities and Exchange Commission as an investment company, but is required to invest according to California Government Code. Participants in the pool include voluntary and involuntary participants, such as special districts and school districts for which there are legal provisions regarding their investments. The Local Investment Advisory Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by state statute. LAIF is not rated by any major investment rating agency.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 2: CASH AND INVESTMENTS – continued

B. Investments – continued

At June 30, 2023, the District's investment position in LAIF was \$3,455,063, which approximates fair value and is the same as value of the pool shares which is determined on an amortized cost basis. LAIF is the only investment reported on an amortized cost basis because the amount available for withdrawal is determined on this basis. The total amount invested by all public agencies in PMIA on that day was \$178.4 billion. Of that amount, 63.08% is invested in government bills and notes, 4.33% is invested in short-term, asset-backed commercial paper, with the remaining 32.59% invested in other non-derivative financial products.

Under the California Government Code, the District may only invest its funds in the following investment types:

Investment	Maximum % of Portfolio
U.S. Treasury Obligations	None
U.S. Agency Obligations	None
State and Local Government Bonds	None
Bankers' Acceptances	40%
Commercial Paper	25%
Negotiable Certificates of Deposit/CD Placement Service	30%
Repurchase Agreements	None
Reverse Repurchase Agreements and Loans of Securities	20%
Medium-Term Notes	30%
Mutual Funds and Money Market Mutual Funds	20%
Collateralized Bank Deposits	None
Mortgage Pass-Through Securities	20%
Bank Time Deposits	None
County Pooled Investment Funds	None
Joint Powers Authority Investment Pools	None
Local Agency Investment Fund (LAIF)	None
Supranational Obligations	30%

In addition, the District's Board of Directors must approve investments. At this time, the only investment approved by the Board is the California Local Agency Investment Fund. By limiting its investments to this fund managed in accordance with the California Government Code, the District minimizes its credit quality risk, custodial credit risk, concentration of credit risk, interest rate risk, and foreign currency risk.

NOTE 3: CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2023 is summarized below:

	Year Ended June 30, 2022	Additions	Reductions	Transfer/ Adjustment	Year Ended June 30, 2023
Capital assets, non-depreciable:					
Land	\$ 463,183	\$ -	\$ -	\$ -	\$ 463,183
Construction in-progress	309,305	-	-	(309,305)	-
Total capital assets, non-depreciable	772,488	-	-	(309,305)	463,183
Capital assets, depreciable:					
Water utility plant	4,342,847	3,583	(12,569)	309,305	4,643,166
Sewer utility plant	9,072,938	28,615	(33,042)	-	9,068,511
General plant/equipment - Water	746,921	16,118	(48,509)	294	714,824
General plant/equipment - Sewer	758,418	12,864	(46,907)	(294)	724,081
Software	21,750	-	-	-	21,750
Total capital assets, depreciable	14,942,874	61,180	(141,027)	309,305	15,172,332
Less accumulated depreciation	(5,835,307)	(444,518)	141,027	-	(6,138,798)
Total capital assets, net	<u>\$ 9,880,055</u>	<u>\$ (383,338)</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9,496,717</u>

Depreciation expense for the fiscal year ended June 30, 2023 totaled \$444,520 and is charged to Water, Sewer, and Community Facilities activities based on the function and assignment of depreciable assets.

NOTE 4: LONG-TERM LIABILITIES

Long-term liabilities at June 30, 2023, consisted of the following:

	Year Ended June 30, 2022	Additions	Deletions	Balance June 30, 2023	Amounts Due Within One Year
Installment debt:					
SWRCB sale agreement	\$ 932,681	\$ -	\$ (58,779)	\$ 873,902	\$ 59,896
USDA bond	4,467,000	-	(85,000)	4,382,000	87,000
CEC loan	1,527,824	-	(88,518)	1,439,306	89,367
Total	6,927,505	-	(232,297)	6,695,208	236,263
Other long-term liabilities:

Net pension obligation	554,217	719,820	-	1,274,037	-
OPEB	827,798	41,670	-	869,468	-
Compensated absences	28,587	27,459	(28,587)	27,459	13,730
Total	1,905,490	788,949	(152,309)	2,542,130	137,452
Total long-term liabilities	<u>\$ 8,832,995</u>	<u>\$ 788,949</u>	<u>\$ (384,606)</u>	<u>\$ 9,237,338</u>	<u>\$ 373,715</u>

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 4: LONG-TERM LIABILITIES – continued

The net pension obligation and Other Post-employment Benefits (OPEB) liability are stated separately, while all other amounts are reported together on the Statement of Net Position.

On May 16, 2013, the California State Water Resources Control Board (SWRCB) executed a finance agreement with the District to provide up to \$1,215,000 in debt financing from the state's Clean Water State Revolving Fund (CWSRF) for the District's wastewater treatment plant improvement project. The proceeds of the financing are disbursed to the District only upon receipt of disbursement requests from the District that itemize project costs incurred. Annual installment payments on the debt are due to the SWRCB March 17 of each year, with annual interest accruing at the rate of 1.9%. Payments began March 17, 2017, and the final payment will be due March 17, 2036. The financing is structured as an installment sale agreement of the wastewater treatment plant improvement and constructed wetlands project. The agreement requires the District to maintain one year of debt service in a reserve fund for the entire term of the agreement. Special tax revenues levied for project purposes under the Community Facilities District are pledged for payment of this and any other debt related to the project and repayment is secured by a lien on these revenues. The District has covenanted to levy special taxes each year in a total amount of at least 1.1 times the total annual debt service. SWCRB reserves the right to require an audit of the District's disbursements reimbursed by the loan proceeds.

On August 15, 2014, the District issued a Special Tax Bond to the United States Department of Agriculture (USDA) to finance necessary improvements to the wastewater treatment plant and the constructed wetlands project. The total face amount of the bond is \$5,000,000. The bond bears interest at the rate of 2.75%. The bond matures in annual installments and interest on the bond is payable in semi-annual installments over 40 years commencing on July 1, 2015. The bond is secured by a first lien and pledge of the special tax revenues levied by Community Facilities District No. 2011-1 for the project. USDA requires the District to set aside a reserve equal to the average annual debt service and a short-lived asset reserve to be funded with \$15,730 annually. The bond is payable solely from the Community Facilities District No. 2011-1 special tax revenues and the assets pledged.

On April 17, 2019, the District entered into an agreement with Halcyon Solar Construction to supply and install photovoltaic electric generating systems (PV systems) at the District facilities to supply solar power. The full cost of this construction totaled \$1,590,800 and was financed with a promissory loan bearing a 1% interest rate from the California Energy Commission (CEC). Construction for this solar project was completed in April 2020, which is the date the final disbursement of funds was received from the CEC.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 4: LONG-TERM LIABILITIES – continued

On September 22, 2021, the District entered into an agreement with Superior Tank Solutions, Inc. to replace the interior lining of two water tanks and provide ongoing maintenance and repairs. The contract requires a minimum of 5 annual payments of \$123,722 with the option to continue regular maintenance and repairs for an additional 15 years at a cost of \$36,336 per year. If the contract is terminated before the 5-year period is complete, the remaining balance of the first 5 annual payments becomes due and payable. The agreement does not bear any interest and does not qualify as installment debt.

The table for installment debt below represents estimated principal and interest payments to maturity on the USDA Special Tax Bond, SWRCB Installment Sale Agreement, and the California Energy Commission loan:

Year Ended June 30,	Principal	Interest	Total
2024	\$ 236,263	\$ 150,122	\$ 386,385
2025	241,335	145,616	386,951
2026	245,401	128,679	374,080
2027	250,496	124,927	375,423
2028	254,595	121,083	375,678
2029-2033	1,349,157	473,582	1,822,739
2034-2038	1,329,960	434,331	1,764,291
2039-2043	692,000	336,795	1,028,795
2044-2048	792,000	234,932	1,026,932
2049-2053	908,000	118,223	1,026,223
2054-2055	396,000	10,917	406,917
Total	<u>\$ 6,695,207</u>	<u>\$ 2,279,207</u>	<u>\$ 8,974,414</u>

The District's total interest expense incurred is displayed as a non-operating expense on the Statement of Revenues, Expenses, and Changes in Net Position.

NOTE 5: RISK MANAGEMENT/INSURANCE JOINT VENTURE

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, natural disasters, delivery of water, and treatment and disposal of wastewater. These risks are addressed through the District's membership in the Association of California Water Agencies – Joint Powers Insurance Authority (JPIA). The purpose of the JPIA is to arrange and administer programs for the pooling of self-insured losses, to purchase excess insurance or reinsurance, and to arrange for group-purchased insurance for property and other coverages. The JPIA's members have pooled funds in order to be self-insured for general liability, property, pollution liability, and workers' compensation. Each member district pays a premium commensurate with the level of coverage requested, and shares surpluses and deficit proportionate to their participation.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 5: RISK MANAGEMENT/INSURANCE JOINT VENTURE – continued

The District has had no settlements that exceeded its insurance coverage in any of the last three years. Complete audited financial statements of the JPIA can be obtained online at www.acwajpia.com.

NOTE 6: PENSION PLAN

A. Plan Description

The District contributes to the California Public Employees' Retirement System (CalPERS), a cost-sharing, multiple-employer defined benefit pension plan. The District's plan is part of the "Miscellaneous 2% at 60 Risk Pool" within the CalPERS system. All full-time District employees who have been employed for over six months are eligible to participate in CalPERS. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. A menu of benefit provisions as well as other requirements is established by State statutes within the Public Employee's Retirement Law. The District selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through the approval of the District's Board of Directors. Benefits include a periodic pension payment upon retirement, as well as death and survivor benefits. Annual cost of living adjustments are included. Disability retirement is permitted subject to certain requirements. CalPERS makes reports available to the public that provide a detailed description of the pension plan's benefit provisions, actuarial assumptions, membership information, and fiduciary net position. These reports can be found on the CalPERS website at <http://www.calpers.ca.gov/>.

The Plans' provisions and benefits in effect at June 30, 2023, are summarized as follows:

	Miscellaneous	
	<u>Prior to January 1, 2013</u>	<u>On or After January 1, 2013</u>
Hire date		
Benefit formula	2% @ 60	2% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	Monthly for life	Monthly for life
Retirement age (no disability)	50+	52+
Required employee contribution rates	7%	6.25%
Required employer contribution rates	9.281% + \$66,266	7.73% + \$1,242

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 6: PENSION PLAN - continued

B. Funding Policy

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS.

The actuarially-determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The District is required to contribute the difference between the actuarially-determined rate and the contribution rate of employees.

Active plan members who were members prior to January 1, 2013 are required to contribute 7% of their annual covered salary by state statute; however, the District pays this 7% on behalf of employees as a fringe benefit negotiated in past years' pay packages. Active plan members whose membership began on or after January 1, 2013 are required to contribute 6.25%; for these members the District does not contribute the employee's 6.25% on his or her behalf and makes only the contribution required of the employer.

For the year ended June 30, 2023, the employer contributions recognized as deferred outflows of resources were \$155,738.

C. Annual Pension Cost and Net Pension Obligation

Beginning with the fiscal year ended June 30, 2015, the District's net pension liability for each Plan is measured as the proportionate share of the total net pension liability for all employers in the plan. The net pension liability for each of the Plans is measured as of June 30, 2019, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability of the Plan as of June 30, 2022 was approximately 0.02307%.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 6: PENSION PLAN – continued

C. Annual Pension Cost and Net Pension Obligation - continued

For the year ended June 30, 2023, the District recognized pension expense of \$180,052. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 155,738	\$ -
Change in employer's proportion	69,246	-
Differences between employer's contributions and proportionate share of contributions	-	49,839
Changes in assumptions	130,552	-
Differences between projected and actual experience	25,585	17,136
Net differences between projected and actual earnings on plan investments	233,370	-
	<u>\$ 614,491</u>	<u>\$ 66,975</u>

\$155,738 is reported as deferred outflows of resources related to contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended June 30,	Pension Expense
2024	\$ 104,437
2025	91,910
2026	52,694
2027	142,736
Total	<u>\$ 391,777</u>

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 6: PENSION PLAN – continued

C. Annual Pension Cost and Net Pension Obligation – continued

The total pension liabilities in the June 30, 2018 actuarial valuations that were used to determine the June 30, 2023 net pension liability shown in these financial statements were determined using the following actuarial assumptions:

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry age normal cost method
Actuarial Assumptions:	
Discount Rate	6.90%*
Investment Rate of Return	6.90% (includes inflation)** projected
Salary Increases	Varies by entry age and service
Inflation	2.30%
Mortality Rate Table	Based on CalPERS membership data for all funds
Payroll Growth	3.00%
Post Retirement Benefit Increases	Cost of Living Adjustments per contract up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applied, 2.75% thereafter

* The discount rate used to measure the total pension liability was 7.15% for each Plan.

Expectations about future cash flows used in the development of the discount rate assume that both members and employers will make all required contributions on time and as scheduled in all future years. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially-assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15% discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long-term expected discount rate of 7.15% will be applied to all plans in the Public Employees Retirement Fund (PERF) and all periods of projected benefits. The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

**The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 6: PENSION PLAN – continued

C. Annual Pension Cost and Net Pension Obligation – continued

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

<u>Asset class</u>	<u>Assumed Asset Allocation</u>	<u>Real Return Years 1-10 ^{1,2}</u>
Global equity - cap-weighted	30.00%	4.45%
Global equity non-cap-weighted	12.00%	3.84%
Private equity	13.00%	7.28%
Treasury	5.00%	0.27%
Mortgage-backed securities	5.00%	0.50%
Investment grade corporates	10.00%	1.56%
High yield	5.00%	2.27%
Emerging market debt	5.00%	2.48%
Private debt	5.00%	3.57%
Real assets	15.00%	3.21%
Leverage	-5.00%	0.59%
Total	100.00%	30.02%

¹ Real Return Years 1-10: An expected inflation of 2.30% used for this period

² Figures are based on the 2021-22 Asset Liability Management study.

Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 6: PENSION PLAN – continued

C. Annual Pension Cost and Net Pension Obligation – continued

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability for each Plan, calculated using the discount rate for each Plan, as well as estimated amounts for what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease 5.90%	Current Discount Rate 6.90%	1% Increase 7.90%
Net Pension Liability	\$ 1,948,606	\$ 1,274,037	\$ 719,035

NOTE 7: OTHER POST-EMPLOYMENT BENEFITS

A. Plan Description

The District makes medical insurance coverage available to eligible retired employees and their spouses through an agent multiple-employer plan governed by the Public Employees' Medical & Hospital Care Act (PEMHCA) and administered by the District. Employees are generally eligible for this benefit after reaching age 60 and accumulating 20 years of service to the District. As of June 30, 2023, the plan covered seven active employees (assuming these employees meet plan eligibility requirements upon retirement) and two retired District employees who were then receiving benefits. Pursuant to a decision of the Board on July 21, 2015, the District will pay 100% of the high-deductible health plan premiums plus 100% of the dental and vision premiums for current employees and spouses who are eligible to receive the benefit upon retirement. Employees may elect another plan but are required to pay the difference in cost between the plan chosen and the high-deductible health plan. Benefits are provided by the Association of California Water Agencies in exchange for premiums paid by the District. The plan is offered per District policy and benefit provisions may be amended at the District's option. Prefunding contributions are made to the California Employers Retiree Benefit Trust (CERBT) Fund administered by the California Public Employees Retirement System (CalPERS). No stand-alone reports are issued for the plan other than the audited financial report from CERBT that displays separate fiduciary net position balances for each employer. The report is available on the CalPERS website at:

<https://www.calpers.ca.gov/page/employers/benefit-programs/cerbt>

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 7: OTHER POST-EMPLOYMENT BENEFITS – continued

B. Contributions

In addition to making direct payments for current retiree benefits due, the District makes a discretionary additional contribution to the CERBT trust as determined during each year's budgeting process based on an analysis of funding priorities and approved by the Board of Directors. For the fiscal year ended June 30, 2023, the District contributed \$27,191 in direct payments for retiree health premiums and an additional \$21,280 in contributions to CERBT. No contribution is currently required of plan members.

C. Measurement of the Net OPEB Liability and Underlying Assumptions

The District's net OPEB liability was measured as of June 30, 2022 and the total OPEB liability used to calculate the net OPEB liability was determined by a valuation under the alternative measurement method dated July 1, 2022 that was rolled forward to determine the June 30, 2023 total OPEB liability, based on the following assumptions:

Inflation rate	2.50%
Salary increase	3.00%
Discount rate	5.50%*
Investment rate of return	5.50%
Healthcare trend rates 2023-2034	5.20%
Later years	5.00% to 4.00%
Ultimate rate	4.00%
Medicare	4.00%
Pre-retirement mortality rate	RP-2014 Employee Mortality Table **
Post-retirement mortality rate	RP-2014 Healthy Annuitant Mortality Table**
Pre-retirement turnover	Crocker-Sarason T5 Table Published in The Actuary's Pension Handbook in 1955

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 7: OTHER POST-EMPLOYMENT BENEFITS – continued

C. Measurement of the Net OPEB Liability and Underlying Assumptions – continued

- * In order to determine the discount rate, the projected benefit payments related to current employees for each future period were compared to the projected fiduciary net position available to make those payments. In periods where the fiduciary net position was projected to equal or exceed the benefit payments required, the value of projected benefits to be paid in that period was discounted to the present value using the long-term rate of return on plan investments shown above. In periods where the fiduciary net position was projected to fall below the projected benefit payments, the value of projected payments to be paid in that period was discounted using the municipal bond 20-year high grade bond rate shown above. The discount rate above is the single (blended) rate that, when applied to all projected benefits regardless of whether fiduciary net position is projected to be sufficient, yields the same present value of projected benefits as the present value obtained by applying the long-term investment rate of return or the municipal bond 20-year high grade rate separately to each projected period based on whether or not the fiduciary net position is expected to be sufficient, as discussed above.

The projected fiduciary net position for purposes of determining the discount rate, as discussed above, was based on the assumption that the District will continue to pay all retiree premiums as they come due (“pay-as-you-go financing”) pursuant to the District’s written policy, plus a flat contribution to the CERBT trust of \$21,280 per year based on the District’s current budget amount. In accordance with GASB 75, paragraph 37, a portion of these projected contributions was allocated toward the service cost of future employees and therefore removed from the projection of fiduciary net position available to finance the costs of current employees. The amount allocated to future employees was assumed to be 8.44% of projected future employee payroll in each future period projected.

- ** Mortality rates were based on the most recent experience study for CalPERS members. The RP-2014 Mortality Tables are published by the Society of Actuaries, based on data from 123 private and public pension plans from the years 2004 through 2008. The tables used were specific to males or females, as appropriate, and used without projection.

The assumptions used are subject to change as new information becomes available. Actuarial valuations of the ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and are continually revised as actual results are evaluated in light of previous expectations and new expectations are set. Examples include assumptions about future employment, mortality, and the healthcare cost trend.

Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 7: OTHER POST-EMPLOYMENT BENEFITS – continued

C. Measurement of the Net OPEB Liability and Underlying Assumptions – continued

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to basic financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. The calculations are based on the substantive plan as it is in place at the time of each valuation.

The following presents the net OPEB liability of the District if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2023:

<u>Discount Rate</u>	1% Decrease 4.50%	Discount Rate 5.50%	1% Increase 6.50%
Net OPEB Liability	\$ 1,039,911	\$ 869,468	\$ 729,318

The following presents the net OPEB liability of the District if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2023:

<u>Discount Rate</u>	1% Decrease (4.20% current, 3.00% ultimate, 3.00% Medicare)	Trend Rate (5.20% current, 4.00% ultimate, 4.00% Medicare)	1% Increase (6.20% current, 5.00% ultimate, 5.00% Medicare)
Net OPEB Liability	\$ 690,692	\$ 869,468	\$ 1,097,952

RIO ALTO WATER DISTRICT

For the Year Ended June 30, 2023

NOTE 7: OTHER POST-EMPLOYMENT BENEFITS – continued

D. Changes in the OPEB Liability

The changes in the net OPEB liability for the plan are as follows:

	(Increase)/Decrease in Net OPEB Liability		
	Total OPEB	Plan Fiduciary	Net OPEB
Balances at 6/30/2022	\$ 1,117,632	\$ 289,834	\$ 827,798
Changes for the year:			
Service cost	46,180	-	46,180
Interest	63,036	-	63,036
Experience differences	-	-	-
Assumption changes	-	-	-
Other	-	-	-
Contribution-employer	-	57,149	(57,149)
Net investment income	-	10,661	(10,661)
Benefit payments	(35,869)	(35,869)	-
Administrative expense	-	(264)	264
Net changes	<u>73,347</u>	<u>31,677</u>	<u>41,670</u>
Balances at 6/30/2023	<u>\$ 1,190,979</u>	<u>\$ 321,511</u>	<u>\$ 869,468</u>

E. Deferred Outflows and Inflows

Deferred inflows and outflows related to OPEB are as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in assumptions or other inputs	\$ 81,475	\$ 161,162
Differences between expected and actual experience	-	199,420
Differences between projected and actual return on investments	40,804	13,922
	<u>\$ 122,279</u>	<u>\$ 374,504</u>

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 8: RESTRICTED AND UNRESTRICTED NET ASSETS

The District's net position that is not invested in capital assets is divided between restricted and unrestricted portions. Restricted net position consists of the water and sewer expansion fees received and the interest earned thereon, which can only be used towards costs to expand the facilities, and special taxes collected under Community Facilities District 2011-1 for the purposes project construction and debt service requirements on the Wastewater Treatment Plant project. When restricted funds are used for construction of eligible fixed assets, the restricted and unrestricted portions of net position are adjusted accordingly. The total amount of net position restricted by enabling legislation as of June 30, 2023 was \$1,745,992. The excess of restricted net position over restricted cash is a function of additional Community Facilities activity receivables, less related accrued payables. There is no unrestricted net position within the Community Facilities activity.

NOTE 9: GANN/PROPOSITION 4 APPROPRIATIONS LIMIT

Article XIII-B of the California Constitution establishes a limit on the amount that may be appropriated for spending out of the proceeds of taxes for any given fiscal year. The limit for each year is calculated by applying a cost-of-living and population change factor to the previous year's limit. Government Code Section 7910 requires adoption of the limit by the Board of Directors. As the District's revenues include charges or services and other revenue that is not from the proceeds of taxes, only the amount appropriated from the proceeds of taxes is subject to the limit.

The calculation of the District's Gann/Proposition 4 appropriations limit for the year ended June 30, 2023 and the preceding fiscal year is as follows:

<u>Fiscal Year</u>	<u>Base Limit</u>	<u>% of CPI</u>	<u>% of Population</u>	<u>Overall % Increase</u>	<u>Appropriation Limit</u>
<i>Water</i>					
2021-2022	\$ 232,179	1.0573%	1.0038%	1.0613%	\$ 246,412
2022-2023	\$ 246,412	1.0755%	0.9953%	1.0704%	\$ 263,907
<i>Sewer</i>					
2021-2022	\$ 89,859	1.0573%	1.0038%	1.0613%	\$ 95,368
2022-2023	\$ 95,368	1.0755%	0.9953%	1.0704%	\$ 102,139
<i>Community Facilities District 2011-1</i>					
2021-2022	\$ 1,224,618	1.0573%	1.0038%	1.0613%	\$ 1,299,687
2022-2023	\$ 1,299,867	1.0755%	0.9963%	1.0710%	\$ 1,391,965

The limits calculated above exceeded the proceeds of taxes for both fiscal years presented.

RIO ALTO WATER DISTRICT
Notes to the Basic Financial Statements
For the Year Ended June 30, 2023

NOTE 10: DEFERRED COMPENSATION AND SAVINGS PLANS

The District adopted a "Cafeteria Plan" for their employees, which allows them to use pre-tax wages for their share of medical coverage and other benefits. This plan is administered by a third party.

The District offers eligible employees the option of contributing a portion of their salary to a deferred compensation plan established in accordance with Section 457 of the Internal Revenue Code. Employee contributions made to this plan are generally held until the termination, retirement, or death of the employee and are usually not taxable to the employee until they are paid or made available to the employee. The plan is administered by a third party.

The District has no liability for any losses sustained by employees through these plans.

NOTE 11: SUBSEQUENT EVENTS

The District has evaluated subsequent events through December 29, 2023, the date the financial statements were available to be issued. Management has determined that no adjustments are necessary to the amounts reported in the accompanying financial statements.

Required Supplementary Information (Unaudited) - Pensions
For the Year Ended June 30, 2023

Schedule of the District's Proportionate Share of the Net Pension Liability:

Year Ended June 30,	Proportion of net pension liability	Proportionate share of net pension liability	Covered payroll	Proportionate share of the net pension liability as a % of covered employee payroll	Plan fiduciary net position as a % of the total pension liability
2014	0.01113%	\$ 692,801	\$ 372,321	186.08%	80.14%
2015	0.02170%	595,385	444,747	133.87%	79.89%
2016	0.02313%	803,377	451,828	177.81%	75.87%
2017	0.02353%	927,731	465,211	199.42%	75.39%
2018	0.02345%	883,863	467,365	189.12%	75.39%
2019	0.02379%	952,597	450,733	211.34%	78.82%
2020	0.02497%	1,053,398	491,630	214.27%	77.36%
2021	0.02405%	554,217	528,190	104.93%	74.74%
2021	0.02307%	\$ 1,274,037	\$ 530,557	240.13%	74.74%

Schedule of Contributions:

Year Ended June 30,	Contractually required contribution (actuarially determined)	Contributions in relation to the actuarially- determined contributions	Contribution deficiency (excess)	Covered payroll	Contributions as a % of covered payroll	Valuation Date
2014	\$ 58,142	\$ (58,142)	\$ -	\$ 372,321	15.62%	6/30/2013
2015	63,772	(63,772)	-	444,747	14.34%	6/30/2014
2016	77,672	(77,672)	-	451,828	17.19%	6/30/2015
2017	95,060	(95,060)	-	465,211	20.43%	6/30/2016
2018	76,525	(76,525)	-	467,365	16.37%	6/30/2017
2019	80,000	(80,000)	-	450,733	17.75%	6/30/2018
2020	109,727	(109,727)	-	491,630	22.32%	6/30/2019
2021	135,994	(135,994)	-	528,190	25.75%	6/30/2020
2021	\$ 153,379	\$ (153,379)	\$ -	\$ 530,557	28.91%	6/30/2021

Although GAAP requires a 10-year history of the above information, the data is only available for the periods transpired since the implementation of GASB 68. A summary of the principal assumptions and methods used to determine the contribution rates presented above for the relevant valuation date is below:

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry age normal cost method
Actuarial Assumptions:	
Discount Rate	6.90%*
Investment Rate of Return	6.90% (includes inflation)** projected Salary
Increases	Varies by Entry Age and Service
Inflation	2.30%
Mortality Rate Table	Based on CalPERS membership data for all funds
Payroll Growth	Varies by entry age and service
Post Retirement Benefit Increases	Cost of Living Adjustments up to 2.30%

RIO ALTO WATER DISTRICT
Notes to the Other Supplementary Information
For the Year Ended June 30, 2023

Advances To/From Other Activity

The accompanying Supplemental Statement of Net Position by Activity displays an internal advance between the water and sewer activities that was determined based on the cumulative total amount by which the reported expenses of the sewer activity exceeded the revenues of that activity since its inception. The methodology by which employee benefit and indirect costs are allocated between the activities has a material impact in determining the ultimate ending balance of this internal asset/liability. Prior to the 2015-2016 fiscal year, employee benefit expenses and other indirect costs had been allocated between the water and sewer activities based on a fixed allocation formula of 60% to Water and 40% to Sewer which was not adjusted for changes in the employee or administrative effort devoted to the activities. In addition, office personnel cost had been allocated in a higher percentage to sewer than an analysis of their job duties might suggest, given that water billing is more time-consuming and customer service intensive than sewer billing.

Based on an analysis of financial data, the District has decided to restate the internal advance effective July 1, 2017 between the water and sewer activities to what it would have been if the employee benefit costs since July 1, 1998 had been allocated in a manner consistent with the related employee salaries and if the office personnel had been allocated between the activities in a way that takes into account the demands of the water billing process. This adjustment was reflected in the other supplemental statements as a prior period adjustment for the fiscal year ended June 30, 2018. The District has maintained this allocation estimate through June 30, 2023.

Although the District began accumulating the liability from the sewer to the water activity at the inception of sewer service in the 1970s, the District was under an obligation pursuant to the terms of a legal settlement to provide sewer services even though it was not feasible for the sewer to be self-sustaining at that point with the very small number of sewer customers then connected to the system. In addition, the Proposition 218 requirements for rates that do not exceed the reasonable cost of providing services did not go into effect until 1998. The above adjustment does not include an adjustment for any amounts that accumulated prior to July 1, 1998. These amounts have been segregated into a separate general ledger account in the District's books, and the District plans to address this pre-1998 portion of the balance once the more recent balance has been retired. The total amount of the liability from the sewer activity to the water activity that had accumulated prior to July 1, 1998 was \$283,863.

The District has also reallocated pension and other post-employment benefit liabilities arising prior to July 1, 2017 equally to water and sewer based on the long-term historical breakdown of salary costs between the two entities.

December 29, 2023

To the Board of Directors
Rio Alto Water District
Cottonwood, California

We have audited the financial statements of the governmental activities, business-type activities, and each major fund of Rio Alto Water District (the District) for the year ended June 30, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 26, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Rio Alto Water District are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the fiscal year ended 2023. We noted no transactions entered into by Rio Alto Water District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no pervasive or unusual risks determined based on the limited estimates over which District management and governance have control. The most sensitive estimate affecting the government-wide financial statements were:

Management's estimate of capital assets' useful lives, and the resulting depreciation expense, is based on the District's historical experience with previously used capital assets of similar type and classification, as well as standards used by other similar special districts in the County. We evaluated the key factors and assumptions used to develop the estimated useful lives of capital assets in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements were:

The footnote disclosure for the defined benefit pension plan provides the context and basis for the significant estimates surrounding pension which are beyond management's control. The pension liability (asset) has, and is expected to continue to fluctuate significantly annually, in accordance with the accounting provisions under Governmental Accounting Standards Board (GASB) Statement No. 68.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements, to the extent possible by approving the adjustment needed to reconcile County reports to the audited financial statements. The following audit adjustments were material to the financial statements:

- GASB 68 and 75 pension and OPEB adjustments
- Reclassified construction in-progress and non-capital outlay expenditures
- Restated current portion of Maintenance Contract liability

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 29, 2023.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

During the course of performing audit procedures this year over cash disbursements, we identified 8 of 22 sampled transactions that did not have two sets of initials identifying approval of an entered invoice for payment. Previous inquiry and documentation suggested this was a District control and/or policy to mitigate risk over cash disbursements. We do not consider this a pervasive matter or significant deficiency in internal controls, as we still identified approval for monthly disbursement runs within the Board Minutes. We recommend documenting the approvals on the source documents or updating District policies to reflect the current changes and controls over cash disbursements, which facilitates a means to verify approval of a particular vendor payable and its coding in the accounting system.

Other Matters

We applied certain limited procedures to the budgetary comparison schedules, along with pensions and other post-employment benefits information, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

Restriction on Use

This information is intended solely for the information and use of the Board of Director's and management of Rio Alto Water District and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,
